Capital Notes:

Pricing includes milling, cleanup, tack coat and 2" Asphalt overlay. Any subgrade repairs or wedging would be at an additional cost. While driving the routes there were a few areas that it would be recommended to excavate and repair subgrade prior to asphalt milling and paving work. These are small areas that showed signs of significant settling.

With price volatility of asphalt oil, we have based our pricing on the current MODOT AC index of \$472.50 for May 2021. Adjustment to be made on the index cost at the time of Construction.

With our current backlog of projects being pushed back this season due to weather we cannot guarantee that this work would be completed by September 30th at stated. Capital would work diligently to complete the work but want to be upfront with the City at this time so that there are no issues in the future.
